ABOUT ME

B.Tech Information Technology undergraduate and frontend/full-stack developer with hands-on experience across internships, academic platforms, and production applications. Currently contributing as a Frontend Developer to IIT Mandi's AcadLMS, with experience building web, mobile, desktop, and AI-assisted applications using React, Next.js, TypeScript, Node.js, Firebase, Supabase, PostgreSQL, REST APIs, and Tauri.

EDUCATION

Chandigarh University

Bachelor of Technology in Information Technology

AGSS Centre of Distance Education

Senior Secondary (12th) – 86%

Lucknow, India

2026 – 2030 (Expected)

Prayagraj, India

EXPERIENCE

Indian Institute of Technology Mandi – AcadLMS

Frontend Developer

Jul 2026 – Present

Remote

- Contributing to the frontend development of **AcadLMS**, IIT Mandi's academic learning management system, focused on student-facing academic workflows and digital learning experiences.
- Developing and improving responsive user interfaces and frontend functionality while collaborating on the ongoing development and maintenance of the production platform.

Ethixweb

Full Stack Developer Intern

Aug 2026 – Sep 2026

Remote

- Worked across frontend and backend development, contributing to implementation, debugging, and improvement of production-facing web application functionality.

QSentia.com

Software Development Intern

May 2026 – Jul 2026

Remote

- Contributed to web application development for an AI-driven investment platform serving institutional investors, hedge funds, and family offices, with involvement in implementation and debugging.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, Python, Rust

Frontend: React.js, Next.js, React Native, Tailwind CSS, Framer Motion, ShadCN UI, HTML, CSS

Backend & APIs: Node.js, Express.js, Firebase, Supabase, REST APIs, API Integration

Databases: PostgreSQL, MySQL, Firebase Firestore

Tools & Platforms: Git, GitHub, Tauri, Expo, Vite, Oracle Cloud Infrastructure

Interactive & AI: GSAP, Three.js, AI-assisted Applications, Automation Tools

PROJECTS

ImpactHub | Next.js, Firebase, AI | Live | GitHub

- Built and deployed a full-stack disaster-response platform supporting incident reporting, real-time geographic visualization, AI-assisted report processing, and volunteer coordination.

Gurukul – Attendance & Student Safety System | React Native, Expo, Supabase, PostgreSQL | GitHub

- Developed a mobile attendance and student-safety application with role-based access, attendance management, safety alerts, audit tracking, reporting, and database-backed workflows.

Neatify – Desktop File Management System | Tauri, React, Rust | GitHub

- Built a cross-platform desktop file-management application with automated file organization, categorization, folder management, and reversible local file operations.

Demox – Motion Designer Portfolio | React, TypeScript, GSAP, Three.js | Live | GitHub

- Designed and developed a production portfolio website for a graphic and motion designer using React, TypeScript, responsive UI development, animations, and interactive 3D web experiences.

CERTIFICATIONS & ACHIEVEMENTS

- **Google Solution Challenge 2026 – Build with AI** – Hack2skill, Jul 2026 *Credential: 2026H2S07SCBWAI-TH00077*
- **Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate** – Oracle, Aug 2025
- **Web Development Workshop** – Indian Institute of Technology Bombay, Dec 2025 *Credential: aa75fe04*
